Aptitude and Coding Test:

- The test was for 1 hour and 30 mins
- It had aptitude questions, verbal ability, 1 coding question(easy-moderate level), and 25 MCQ's of OOPS, DSA, SQL, CN.

11 people were shortlisted after the test for technical role.

1st Technical Interview:

- Interviewer asked to tell me about myself.
- I was asked three puzzles
 - 1) <https://www.geeksforgeeks.org/puzzle-9-find-the-fastest-3-horses/>
 - 2) <https://www.ritambhara.in/maximum-distance-with-50-bikes-each-having-fuel-capacity-of-100-kms/> (similar to this, I was asked for 100 bikes)
 - 3) <https://www.geeksforgeeks.org/puzzle-21-3-ants-and-triangle/>

I answered 1st and 3rd correctly, and explained the approach for 2nd but could not reach to final ans.

- Then I was asked a coding question: I was given an array was asked to find two unique pair of elements from it whose sum was equal. I explained the approach but could not get to the final ans.
- He asked me if I had any questions where I asked about my role in the company and some feedback to improve myself.

Finally, 7-8 students were selected for 2nd tech round.

2nd Technical Interview:

- Interviewer asked to tell me about myself.
- He asked me about my projects.
- Some questions related to Java (immutable string)
- He asked about masters, I said I had no plans
- Then he gave me a scenario where I had build an elevator so what all technical requirements will be there(like frontend, backend etc)
- He asked me if I had any questions where I asked about my role in the company and some feedback to improve myself.

4 people were selected for HR Round

HR Interview:

- Overall it was very chill
- First I was to introduce myself
- Then some general questions like who all are in your family, what does your does
- Then I was asked about a project I did which I was proud of.
- I was asked if I had any questions for them, I asked about the work culture in the company.

I was selected after the HR round, all 4 people were selected.
